

This Cookie Notice explains how SKRALLS uses cookies and similar technologies when individuals access or interact with this website. Cookies are small text files placed on a user's device when a website is visited. These files allow websites to recognise returning visitors, support essential website functionality, and understand how visitors interact with website content. SKRALLS uses cookies to maintain the security and functionality of the website, enhance user experience, and analyse how visitors use the website in order to improve its performance.

When users visit this website, certain cookies may be placed on their device. These cookies may collect information relating to device type, browser type, internet protocol address, pages visited, and interactions with website content. Such information helps SKRALLS understand how visitors use the website and supports improvements to the structure, performance, and usability of the site. Information collected through cookies may in some circumstances constitute personal data and will be processed in accordance with the SKRALLS Privacy Notice.

Cookies used on this website generally fall into several categories. Essential cookies are necessary for the basic operation, security, and functionality of the website. These cookies enable features such as page navigation, system stability, and secure access to certain areas of the website and therefore operate automatically when the website is accessed. Performance or analytics cookies help SKRALLS understand how visitors interact with the website by collecting information about page visits, navigation patterns, and general usage trends. Functionality cookies may remember certain user preferences or settings to enhance the experience of returning visitors.

In accordance with applicable laws governing electronic communications and data protection in the United Kingdom, certain types of cookies may only be used with the user's consent. Essential cookies required for the operation of the website may be used automatically, while analytics, performance, or other non-essential cookies will only be used where a user has provided consent through the cookie banner or related preference tools presented when accessing the website.

Some cookies operate only for the duration of a browsing session and are automatically deleted when the browser is closed. Other cookies may remain stored on a device for a defined period so that the website can recognise returning visitors and improve website functionality during future visits. The duration of cookies may vary depending on their

purpose and technical configuration.

In certain circumstances, SKRALLS may use third-party service providers to support website functionality, analytics, or infrastructure services. These providers may place cookies or similar technologies on the website in order to collect information relating to website usage and performance. Where third-party cookies are used, SKRALLS takes reasonable steps to ensure that such providers operate in accordance with applicable data protection requirements and appropriate security standards.

Users have the ability to manage or withdraw consent for non-essential cookies at any time. Cookie preferences may be adjusted through the cookie consent tool presented on the website or through browser settings that allow users to block, delete, or restrict cookies. Most web browsers provide controls that allow users to review stored cookies and adjust privacy settings. Disabling certain cookies may affect the functionality or performance of parts of the website.

Because SKRALLS operates across the United Kingdom and India, information collected through cookies may be processed within these jurisdictions where operationally necessary. Appropriate safeguards are implemented to ensure that such processing is conducted in accordance with applicable data protection laws and appropriate standards for the protection of personal information.

This website may contain links to external websites operated by third parties. SKRALLS does not control and is not responsible for the privacy practices or cookie technologies used by external websites. Users are encouraged to review the cookie and privacy policies of any third-party websites they visit.

SKRALLS may revise or update this Cookie Notice periodically to reflect changes in legal requirements, website technologies, or operational practices. Updated versions will be published on this website and become effective upon publication. Continued use of the website following any updates constitutes acceptance of the revised notice.

Individuals who have questions regarding the use of cookies or similar technologies on this website may contact SKRALLS through the official contact information provided on this website.
